THE BEAR BOW LINE

We carry a complete line of the following Bear bows. Weights in all models 25 lb. to 65 lb. Over 100 bows in stock at all times.

GENERAL ORDERING INFORMATION

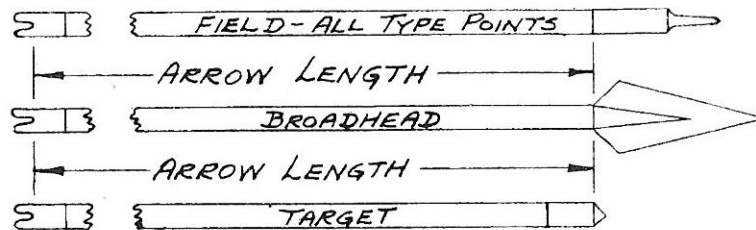

All prices are F.O.B. Please include sufficient postage. Excess postage will be refunded.

Terms are cash with order or C.O.D.

Prices and specifications are subject to change without notice.

When ordering bows be sure to specify bow weight, length of draw, whether right or left handed and any other pertinent information.

When ordering arrows state bow weight and arrow length—see illustration. Where arrow length is different from draw length (distance to back of bow) state draw length also. Broadhead arrows should extend approximately 1" beyond back of bow in order to clear forefinger of bow hand.

HOYT BOWS

THE PRO \$59.50

THE PRO

This is an improved and redesign of the famous Working Recurve model. The PRO has been completely re-engineered for even greater performance than ever before. The new PRO features an entirely new, scientifically developed, geometric deflex reflex design which produces high efficiency for unsurpassed cast plus lower stress of limb for greater service life. Additionally, deflex design increases accuracy through improved stability in the hand and contributes to greater ease of stringing. Another feature of the new PRO is the near center shot design with Folberth patented "cut away" section above arrow rest which permits full range, unobstructed sighting. Contoured for comfort, the pistol grip bow handle properly positions the bow hand. Lengths, 62" and 66". Weights to 65 lbs.
