KINSEY'S ARROW SHOP

CHOCOLATE AVENUE

FLORIN, PA.

PHONE: MOUNT JOY OL 3-4013

GENERAL ORDERING INFORMATION

All prices are F.O.B. Please include sufficient postage. Excess postage will be refunded.

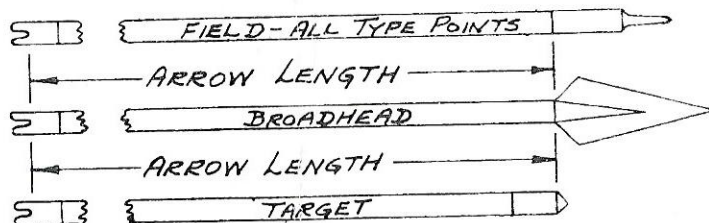

Terms are cash with order or C.O.D.

Prices and specifications are subject to change without notice.

When ordering bows be sure to specify bow weight, length of draw, whether right or left handed and any other pertinent information.

When ordering arrows state bow weight and arrow length—see illustration.

Where arrow length is different from draw length (distance to back of bow) state draw length also. Broadhead arrows should extend approximately 1" beyond back of bow in order to clear forefinger of bow hand.

ARROW LENGTH DETERMINATION

Making arrows this winter? Repairing old ones? Been looking for a tapering tool to fit every size shaft? Here's the answer! This ingenious BLACKHAWK tool uses injector razor blades, so you'll always be able to cut precision nocks and ferrule tapers. Comes with four bushings that fit in tapered hole of main tool; bushing sizes are 1/4", 9/32", 5/16" and 11/32". All bushings are oversize to permit clearance of oversize and pointed shafts.**\$3.50**

"YOUNG" FEATHER TRIMMER

FOR HUNTING, ROVING OR TARGET
