any kind."

E. L. SMITH, Covington, Tenn., writes: "Reply- ing to your inquiry of recent date, will say I have been using your Carey-ized Tonic Blocks for about six months with my herd of Pure Bred Herefords with very satisfactory results. Can heartily recom- mend this product to anyone owning live stock of any kind."

RICHARD CHEATHAM, Walls, Miss., writes: "I have been using the Carey-ized Stock Tonic Blocks on my Plantations for some months and am more than pleased with the results obtained. It does everything claimed for it by you. Will also say that I am selling it in my store and getting many repeat orders from satisfied customers."

fed yards and see how we are using it."

have anyone interested in this tonic come to the Portland, and would be very glad at any time to Stock Tonic to be used at our feed yards at North order for twenty 50-lb. blocks of the Carey-ized stock powders will do. We are today placing an not becoming mixed with dirt as fine as ground also, medicated salt or this form is always clean, well-balanced, keeping them in a good healthy condition and also gives them a salt that is pure; due to the fact that it gives them a tonic that is them to be very beneficial to the sheep and lambs.

Stock Tonic and why they prefer it above all other preparations:

We give you here a few of hundreds of letters showing what these men think of Carey-ized to anything they have ever tried as a worm destroyer and general conditioner.

greater popularity among stockmen in every stock-raising state than any conditioner ever placed on the market. Leaders in the stock raising business who know exactly what animals need in order to be thrifty and profitable, give Carey-ized Tonic their unqualified approval, and declare it is superior Carey-ized Stock Tonic Brick and Block has been on the market for years and has gained

G. P. TUTTLE, Mgr., Wred Harvey Dairy, New- ton, Kansas, writes: "At our Stock Farm here at and two hundred dairy cows, we have been feed- ing your Carey-ized Stock Tonic Brick with good results. It gets the worms. The stock looks good and have not had a bit of sickness. I have recom- mended it for use at some of our other dairy farms."

IRA L. YEAGER, Centerville, Ia., writes: "I have used Carey-ized Stock Tonic Blocks for one year and my stock looks 50% better in various ways—they have a better appetite, work better and are higher lived. There is no product that I have used that will equal it. Not one animal of mine has been sick since the beginning of its use. This fact places me in position to recommend it to all Stock Raisers."

J. D. GRAMER, Dealer at Eagleville, Mo., writes: "We are very much pleased with Carey-ized Stock Tonic. We have sold to many of our customers all of whom get excellent results. I recommend it to all dealers."

Why Animals Need and Stock Feeders Endorse

CAREY-IZED

STOCK TONIC BLOCK AND BRICK

Converting high priced feed stuffs into marketable animal products at a profit calls for a healthy vigorous animal body, free from worms and digestive troubles—one which can throw off or resist diseases at the start, and get the full benefit of the nutritive value of the feed consumed.

Worms, digestive disorders, and malnutrition resulting from insufficient mineral matter in grain and meal feeds, retard growth of young stock and render mature stock unthrifty, causing heavy live stock losses every year—not only death losses, but losses from set-backs and from failure to get adequate returns from feed consumed, which far exceed the losses from disease.

Carey-ized Stock Tonic is a proven preventive of all these losses. It prevents or destroys worms; it promotes animal health and thrift by aiding the digestion and stimulating the formation of flesh-building red corpuscles in the blood; keeping bowels, liver and kidneys in healthy condition. It enables animals to turn their feed into money more completely and in less time.

Carey-ized Stock Tonic is not a stock feed, but a combination of eight different mineral and vegetable salts which are necessary to animal health, growth and thrift, including Iron Sulphate, Powdered Gentian Root, Bi-Carbonate of Soda, Sulphur, Quassia, Carbonized Peat, Charcoal and Pure Dairy Salt.

CONVENIENT AND ECONOMICAL TO FEED

Carey-ized Stock Tonic does away with dosing and drenching. Its solid block and brick form permits it to be placed in feed boxes or under sheds where animals can have access to it at all times without waste. They partake of it as nature dictates—a little at a time and at the right time to prevent disease.
